SUBJECT INDEX

A

Abscess, alveolar, massive acute, 1021
Abstracts of current literature, 105, 221, 339, 446, 567, 680, 794, 912, 1027, 1134, 1249, 1338
Accident, unusual dental, 1267
Actinomycetes and other pleomorphic organisms recovered from pigmented carious lesions of human teeth, 629
Actinomycosis and squamous epithelioma, 1138 (Abst.)
of tongue, 1178
Adamantinoma, hard and dentified, considerations about, 681 (Abst.)
in relation to tooth development, 1136 (Abst.)
Adaptation syndrome, story of, 1248 (B. rev.)
Adaptive hormones, alarm reaction, general adaptation syndrome, and role of stress and, in dental medicine, 355
Adenocarcinoma, metastatic, of mandible from sigmoid colon, 772
Adenoma; benign soft tissue tumors of oral cavity, 583
Alarm reaction, general adaptation syndrome, and role of stress and of adaptive hormones in dental medicine, 355
Allergy, Unacaine, 1082
Alveolar abscess, massive acute, 1021
gingiva, tuberculosis of, 894
Alveolus, maxillary, fracture of, 830
Ameloblastoma, 32
benign odontogenic tumors of oral cavity, 699
dentigerous cyst with, 224 (Abst.)
in 3-year-old boy, 906
Ameloblastomas, management of, 1169
American Academy of Dental Medicine announces annual meeting, 217, 338, 565
mid-annual meeting, 792
to hold annual meeting, 1245
of Implant Dentures, 793
Board of Oral Pathology, 565, 792
Institute of Dental Medicine, 678
Case history service, 793
Anaerobic rods, motile non-sporulating, of oral cavity, 1247 (B. rev.)
Analgesia, trichloroethylene, cardiac arrest occurring under, 1027
Anatomy and physiology, 1134 (Absts.)
dental, 444 (B. rev.)
for surgeons, Vol. I, head and neck, 1130 (B. rev.)
of root canals, 1249 (Abst.)
Anemia, sickle-cell, intraoral roentgenographic changes in, 787
Anesthesia, dental local, problems in, 441 (B. rev.)
endotracheal: technique and adjuncts, 1290
general, complications of, in dentistry as related to respiratory system, 176, 287, 395
(Die Narkose), 1131 (B. rev.)
for oral surgery, 620
in dental chair, problem of prolonged, 1134 (Abst.)
regional, for operative dentistry in hemophiliac, fatal hemorrhage following, 464
trichloroethylene, for operative dentistry on handicapped patients, 488
Anesthesiology, 105, 1027, 1134 (Absts.); 176, 287, 395, 488, 620, 1082, 1223, 1290
Anesthetic, new intravenous, 1223
solutions, local and allied drugs for use in dentistry, recent advances in, 1135 (Abst.)
Angiofibroma; benign soft tissue tumors of oral cavity, 576
Angioneurotic edema, psychosomatic, case of, 172
Angular stomatitis treated with Silicote ointment, 111 (Abst.)
Ankylosis; abnormal bony connections between skull and mandible, 956
Anodontia partialis, report of six cases of, and consideration of some aspects of origin, 406
Anoxia; complications of general anesthesia in dentistry as related to respiratory system, 177
Antibacterial substances, advances in use of, 568 (Abst.)
Antibiotics, abuses and uses of, 917 (Abst.)
advantages and disadvantages of use of, in endodontics, 993
clinical significance of increasing resistance of organisms to, 447, 918 (Abst.)
combinations of, probability of error of negative culture with use of, in endodontic treatment, 1311
role of hormones, vitamins, and, in dental disturbances, 42
Antrum of Highmore, inoperable carcinoma of, 1250 (Abst.)
Aphthous stomatitis, recurrent, failure of smallpox vaccine in treatment of, 110 (Abst.)

Apical periodontitis, role of hydrocortisone in control of, 314
Apnea; complications of general anesthesia in dentistry as related to respiratory system, 399
Appliance, craniomandibular fixation, 842
Armed Forces Institute of Pathology offers special postgraduate course in oral pathology to dentists and physicians, 219
Army Medical Service Graduate School, Dental Division, 1245
Aspirin bleeding, etiology of, 108 (Abst.)
Atlanta-Southern Dental College, Emory University School of Dentistry, 217

B

Bacteremia, transitory, 609
Bacteria, acidogenic, enamel penetration and decalcification by; in vitro studies on initiation of enamel caries, 186
Bacteriology for students of dental surgery, 1131 (B. rev.)
Baird's solution; endotracheal anesthesia: technique and adjuncts, 1290
Beetles, dermestid, skull cleaning with, 96
Benign central tumors of jaws of nonosteogenic and nonodontogenic types, 961
giant-cell tumors; tumors of condyle and temporomandibular joint, 1098
odontogenic tumors of oral cavity, 695
osteogenic tumors of oral cavity, 822
soft tissue tumors of oral cavity, 573
Berkshire Conference in Periodontology and Oral Pathology, fifth annual, 218
Beta-glucuronidase and hyaluronidase, production of, by Streptococcus mitis, 998
Beth Israel Hospital, 679
Biochemistry; physiology of pigmentation, 247
Biology of children of Hopewood House, Bowral, South Wales; 1. Observations on dental caries extending over five years (1947 to 1952), 1028 (Abst.)
Biopsies; malignant tumors of oral cavity, 1032
Biopsy procedures, differential diagnosis of soft tissue lesions of mouth with discussion of, 507
service, study of, 297
Black hairy tongue, 559
Bleeding and clotting times, human, influence of Kutapressin on, 239
postoperative, toluidine blue in management of, 1066
Blum, Theodor, Oral Surgery Award, 103
Boeck's sarcoid of mucous membrane, 1242
Bone changes associated with tooth movement; influence of menstrual cycle on rate of tooth movement, 1138 (Abst.)
cortical, use of, to stimulate osteogenesis, 1273
fibrous dysplasia of, 1137 (Abst.)
grafting, immediate, in treatment of benign and malignant tumors of mandible, technique of, and review of 17 consecutive cases, 1249 (Abst.)
infection of, secondary to treatment of fracture of mandible by means of skeletal fixation, 601
malignant giant cell tumor of, 222 (Abst.)
repair, experimental, use of hyaluronidase in soft tissue injury and its influence on, 1340 (Abst.)
tumors, malignant, practical considerations in management of, 680 (Abst.)
Bony connections, abnormal, between skull and mandible, 954
Book notices, 444
Bradosol, observations on clinical use of, 873
Branchiogenic cyst, tuberculosis in wall of, 107 (Abst.)
Bronchospasm; complications of general anesthesia in dentistry as related to respiratory system, 395
Bronx VA Hospital, two residencies offered in, 219

C

Calculus, salivary, preventive agent, clinical evaluation of, 607
substitute, effect of chemical agents on, 484
Cancer, fluorescence of, under Wood light, 967
intraoral—general considerations, 446 (Abst.)
of tongue, surgical treatment of, 339 (Abst.)
viral concept of, 255
Canine, impacted maxillary, preoperative roentgenographic localization of, 499
Carcinoma, epidermoid; neoplasms of mandible, 130
inoperable, of antrum of Highmore, 1250 (Abst.)
malignant tumors of oral cavity, 1038
maxillary, retained teeth and, 446 (Abst.)
metastatic, in mandible, 587
of Stenson's duct, 795 (Abst.)
oral, Gelfoam sponge biopsy in diagnosis of, 417
suspected renal cell, of mouth, case of, 453

Cardiac arrest, acute; its pathogenesis, therapy, and prognosis, 1138 (Abst.)
occurring under trichloroethylene analgesia, 1027 (Abst.)
Caries, dental, in rats, method of controlling, by injections of sodium fluoride, 1340 (Abst.)
in Syrian hamsters, some observations on, 207
observations on, extending over five years (1947 to 1952); biology of children of Hopewood House, Bowral, South Wales, 1028 (Abst.)
protection by fluorine in drinking water evaluated on 16- to 18-year-old adolescents, 917 (Abst.)
rampant, practical nutritional management of, 865
Carious dentine, preliminary report of investigation to study effectiveness of certain drugs for sterilizing, 647
enamel and dentine, electron microscopy of, 64
lesions, pigmented, of human teeth, actinomycetes and other pleomorphic organisms recovered from, 629
-like lesions of enamel produced in artificial mouth, 427
Cartilage tumors of jaws, 1320
Causalgia in dentistry: abandoned pain syndrome, 594
Cavernous hemangioma occurring in body of mandible, 1201
Cellulitis arising from dental origin, incision and drainage in treatment of, 474
Cementoma; clinical significance of hypercementosis, 85
Central fibroma; benign central tumors of jaws of nonosteogenic and nonodontogenic types, 965
tumors, benign, of jaws of nonosteogenic and nonodontogenic types, 960
Cephalographics; agenesis of mandibular condyle, 135
Cerebral palsy dental fellowship at Columbia University, 439
Clinical physiology of occlusion at Columbia University, 439
Cheek, Hodgkins' "sarcoma" of, 213
necrosis of nose and, secondary treatment of trigeminal neuralgia, 569 (Abst.)
Cheilitis, granulomatous, M.R.S. syndrome and, 913 (Abst.)
Chemical agents, effect of, on calculus substitute, 484
Chlorophyll stain penetration of tooth, 312
Chromic phosphate solution, radioactive, treatment of mixed tumor of tongue with, 223 (Abst.)
Chondrosarcoma of maxilla, 140
Cleft palate, importance of timing of treatment in, 1046
prosthesis, meatus obturator in, 852
Clinical and laboratory research, 917, 1340 (Absts.)
oral pathology, indications for the value of laboratory tests in, 1217
studies in, 217, 332, 559, 787, 1021, 1320
orthodontics; lehrgang der gebissregelung, 442, (B. rev.)
periodontology—dynamics and treatment, 444 (B. notice)
physiology of occlusion at Columbia University, 439
Cohen, Rose, memorial lecture, 217
Colon, sigmoid, metastatic adenocarcinoma of mandible from, 772
Colorado Dental Foundation, 565
Columbia University, cerebral palsy dental fellowship at, 439
clinical physiology of occlusion at, 439
offers course on temporomandibular joint disorders, 1335
periodontology courses at, 439
Condylar fracture, comminuted, condylectomy of, and treatment of associated fracture of right lower jaw on child 11 years of age, 460
fractures; effects of trauma and hypermotility on temporomandibular joint, 877
hypertrophy, facial asymmetries due to, 449 (Abst.)
Condyle and temporomandibular joint, tumors of, 1091
Condylectomy; effects of trauma and hypermotility on temporomandibular joint, 880
of comminuted condylar fracture and treatment of associated fracture of right lower jaw on child 11 years of age, 460
Condyles, mandibular agenesis of, 133
Cortical bone, use of, to stimulate osteogenesis, 1273
Cranio-facial thrombophlebitis, 1139 (Abst.)
Craniomandibular fixation appliance, 842
Crystalline penicillin G, pure, tablets in extraction wounds, use of, 145
Cuban Dental Congress, 566
Cushing's syndrome; recent advances in endocrinology, 276
Cuspid, unerupted mandibular, extraoral removal of, 1197
Cutaneous disease as part of systemic disease; dentist looks at field of dermatology, 164

Cylindroma in nose and sinuses, 106 (Abst.)
malignant mixed tumor of palate, 705
Cylindromata of major and minor salivary gland origin, 914 (Abst.)
Cyst, atypical multilocular follicular, of mandible, 1
branchiogenic, tuberculosis in wall of, 107 (Abst.)
dentigerous: case report, 604
in wall of maxillary sinus, 1210
of right mandible involving three teeth, treated after enucleation with cancellous bone chip grafts inserted intraorally, 848
with ameloblastoma, 224 (Abst.)
nasopalatine, 1062
involving greater portion of palate, 1183
solitary (hemorrhagic), of mandible, 88
Cysts, odontogenic, neoplasia in, 1227

D

Decalcification, hyperemic, 332
Defect, facial, removal of, by use of stent, 1212
Deformities, developmental, of mandible, surgical correction of, 916 (Abst.)
facial, 1140 (Abst.)
Deformity, oral and facial, 1132 (B. rev.)
Dental accident, unusual, 1267
anatomy, 444 (B. rev.)
anomalies in hypoparathyroidism, study of, 917 (Abst.)
caries in rats, method of controlling, by injections of sodium fluoride, 1340 (Abst.)
in Syrian hamsters, some observations on, 207
observations on, extending over five years (1947 to 1952); biology of children of Hopewood House, Bowral, South Wales, 1028 (Abst.)
disturbances, role of hormones, vitamins, and antibiotics in, 42
enamel, human, composition and structure of, 681 (Abst.)
local anesthesia, problems in, 441 (B. rev.)
medicine, alarm reaction, general adaptation syndrome, and role of stress and of adaptive hormones in, 355
operations, spasmophilia during, 914 (Abst.)
practice, handbook for, 443 (B. rev.)
remedies, accepted, 444 (B. rev.)
surgery, bacteriology for students of, 1131 (B. rev.)
Dentigerous cyst: case report, 604
in wall of maxillary sinus, 1210
of right mandible involving three teeth, treated after enucleation with cancellous bone chip grafts inserted intraorally, 848
with ameloblastoma, 224 (Abst.)
Dentin mineralization, impaired, of rachitic rats, experimental prevention of, 912 (Abst.)
Dentinal canals, true nature of; electron microscope studies of dentine, 662
dysplasia, new form of: shell teeth, 543
Dentine, carious enamel and, electron microscopy of, 64
preliminary report of investigation to study effectiveness of certain drugs for sterilizing, 647
electron microscope studies of, 662
fibro-osteoma, containing, of mandible, 726
protective secondary, evocation and production of, 794 (Abst.)
Dentinogenesis imperfecta, 984
Dentist looks at field of dermatology, 161
Dentistry, causalgia in: abandoned pain syndrome, 594
complications of general anesthesia in, as related to respiratory system, 176, 287, 395
operative, in hemophiliac, fatal hemorrhage following regional anesthesia for, 464
on handicapped patients, trichloroethylene anesthesia for, 488
problems of pain in, 149
psychosomatic, dynamics of, 1133 (B. rev.)
recent advances in local anesthetic solutions and allied drugs for use in, 1135 (Abst.)
Dentition of marmoset, studies on, 671
primary, of monkeys, microscopic studies of periodontium of; II. posterior teeth during mixed dentitional period, 322
Dermatology, dentist looks at field of, 161
Dermestid beetles, skull cleaning with, 96
Diabetes mellitus; recent advances in endocrinology, 277
Diagnosis and treatment of hemophilia, 914 (Abst.)
differential, of periapical lesions, value of roentgenographic film in, 979
of soft tissue lesions of mouth with discussion of biopsy procedures, 507
microscopic; study of new biopsy service, 297
of maxillary sinusitis in infants, 913 (Abst.)
of oral carcinoma, Gelfoam sponge biopsy in, 417
pemphigus vulgaris, 913 (Abst.)
Diet manual, Mayo Clinic, 1131 (B. rev.)
Disease, Engelmann's; mandibular involvement in osteopathia hyperostotica sclerotisans multiplex infantilis, 1306
Paget's (osteitis deformans), 939
periodontal—practical approach to its treatment and prevention, 1250, 1338 (Abst.)

Diseases, gingival; steroid hormones and periodontal diseases, 389
neurological, of face, 916 (Absts.)
periodontal, classification of, 477
steroid hormones and, 383
Displacement of submaxillary gland and its clinical importance, 447 (Abst.)
District of Columbia Dental Society, twenty-second annual postgraduate clinic of, 217
Dramamine, parenteral, use of, to control postoperative vomiting in office practice of oral surgery, 294
Drugs, 917 (Absts.)
Dwarfism, pituitary; recent advances in endocrinology, 270
Dysplasia, dentinal, new form of: shell teeth, 543
fibrous, of bone, 1137 (Abst.)
monostotic fibrous, of mandible, 1236
polyostotic fibrous, 524

E

Ectodermal atypical polydysplasia and myxedema, 221 (Abst.)
Edema, psychosomatic angioneurotic, case of, 172
Edentulous patients, mandibular protrusion in, 813
Elastic headgear, 1214
Electrocoagulation of Gasserian ganglion in trigeminal neuralgia, personal experiences with, 916 (Abst.)
Electron microscope studies of dentine, 662
microscopy of carious enamel and dentine, 64
Embryology; physiology of pigmentation, 241
Emory University School of Dentistry, Atlanta-Southern Dental College, 217
Enamel and dentine, carious, electron microscopy of, 64
caries, in vitro studies on initiation of; IV. enamel penetration and decalcification by acidogenic bacteria, 186
carious-like lesions of, produced in artificial mouth, 427
human dental, composition and structure of, 681 (Abst.)
penetration and decalcification by acidogenic bacteria; in vitro studies on initiation of enamel caries, 186
Endocrinology, recent advances in, 268
Endodontic treatment, probability of error of negative culture with use of combinations of antibiotics in, 1311
Endodontics, 98, 194, 314, 647, 993, 1311
advantages and disadvantages of use of antibiotics in, 993
clinical appraisal of Varidase in, 658
Endosteal osteoma, delay healing of lower right first molar extraction wound located within, 948
Endotracheal anesthesia: technique and adjuncts, 1290
Engelmann's disease; mandibular involvement in osteopathia hyperostotica sclerotisans multiplex infantilis, 1306
Enucleation with cancellous bone chip grafts inserted intraorally, dentigerous cyst of right mandible involving three teeth, treated after, 848
Epidermoid carcinoma; neoplasms of mandible, 130
Epithelioma, squamous, actinomycosis and, 1138 (Abst.)
Epulis; benign soft tissue tumors of oral cavity, 574
Erythema multiforme—Stevens-Johnson syndrome, 750
Erythromycin and penicillin, observations on comparative efficacy of, in streptococcal infections, 448 (Abst.)
clinical investigation in use of, for infection of oral cavity, 858
European Coordination Center for Fluorine Research and Dental Caries Prophylaxis, constitution of, 439
Exodontia, use of new vasoconstrictor (Kutapressin) in, 12
Extraction, prolonged hemorrhage following, in hemophiliac, 720
wound, lower right first molar, located within endosteal osteoma, delay healing of, 948
wounds, use of pure crystalline penicillin G tablets in, 145

F

Facial asymmetries due to condylar hypertrophy, 449 (Abst.)
defect, removal of, by use of stent, 1212
deformities, 1140 (Abst.)
nerve, significance of marginal mandibular branch of, 1134 (Abst.)
oral and, deformity, 1132 (B. rev.)
Faciomaxillary injuries, early treatment of; discussion on management of injuries of nose and upper jaw, 569 (Abst.)

Fibroma; benign soft tissue tumors of oral cavity, 574
central; benign central tumors of jaws of nonosteogenic and nonodontogenic types, 965
odontogenic, 307
neoplasms of mandible, 129
ossifying, of maxillary tuberosity associated with unerupted ectopic molar, case of, 1204
Fibro-osteoma, containing dentine, of mandible, 726
tumors of condyle and temporomandibular joint, 1098
Fibrosarcoma of capsule of mandibular joint; tumors of condyle and temporomandibular joint, 1101
Fibrous dysplasia, monostotic, of mandible, 1236
of bone, 1137 (Abst.)
of condyle; tumors of condyle and temporomandibular joint, 1101
polyostotic, 524
polyp; benign soft tissue tumors of oral cavity, 574
First District Dental Society, 103
Third Public Health Workshop, 1337
Fluorescence of cancer under Wood light, 967
Fluorine in drinking water, caries protection by, evaluated on 16- to 18-year-old adolescents, 917 (Abst.)
Follicular cyst, atypical multilocular, of mandible, 1
Fracture, comminuted condylar, condylectomy of, and treatment of associated fracture of right lower jaw on child 11 years of age, 460
of mandible, intraoral open reduction of, 225
treatment of, by means of skeletal fixation, infection of bone secondary to, 601
of maxillary alveolus, 830
Fractures; role of hormones, vitamins, and antibiotics in dental disturbances, 52
French Congress of Stomatology, fourteenth, 566
Frenum position and vestibule depth in relation to gingival health, 1069
Fröhlich's syndrome and undescended testes; recent advances in endocrinology, 270

G

Gasserian ganglion, personal experience with electrocoagulation of, in trigeminal neuralgia, 916 (Abst.)
Gebissregelung, lehrgang der, 442 (B. rev.)
Gelfoam sponge biopsy in diagnosis of oral carcinoma, 417
Genetics; physiology of pigmentation, 243
General adaptation syndrome, alarm reaction, and role of stress and of adaptive hormones in dental medicine, 355
Giant-cell tumor, benign, of central type; benign central tumors of jaws of nonosteogenic and nonodontogenic types, 960
malignant, of bone, 222 (Abst.)
of mandible associated with hyperparathyroidism and osteitis fibrosa cystica generalisata, 534
peripheral; benign soft tissue tumors of oral cavity, 576
pseudo (reparative granuloma) of jaw, 113
Giant-cell tumors, benign; tumors of condyle and temporomandibular joint, 1098
Gingiva, alveolar, tuberculosis of, 894
observations on basement membrane of, 763
Gingivae, solitary metastatic lesion to, masquerading as inflammation, 403
Gingival condition in pregnant women, 641
diseases; steroid hormones and periodontal diseases, 389
health, frenum position and vestibule depth in relation to, 1069
Granuloma, reparative, pseudo giant cell tumor of jaw, 113
Granulomatous cheilitis, M.R.S. syndrome and, 913 (Abst.)

H

Hairy tongue, 109 (Abst.)
black, 559
unilateral, 1140 (Abst.)
Hamster, replantation of teeth in, 1116
Syrian, effect of x-ray irradiation on incisors of, 1011
Hamsters, Syrian, some observations on dental caries in, 207
Handicapped patients, tricholoroethylene anesthesia for operative dentistry on, 488
Hard palate, intraductal papilloma of, 232
psoriasis of, 280
Head and neck; anatomy for surgeons, 1130 (B. rev.)
Headgear, elastic, 1214
Healing, delay, of lower right first molar extraction wound located within endosteal osteoma, 948
Health, gingival, frenum position and vestibule depth in relation to, 1069

Hemangioma; benign soft tissue tumors of oral cavity, 584
cavernous, occurring in body of mandible, 1201
erectile, of masseter muscle, 449 (Abst.)
Hemangiomas of mandible, 450 (Abst.)
Hematogenous osteitis, acute, in childhood, 452 (Abst.)
Hemophilia, diagnosis and treatment of, 914 (Abst.)
Hemophiliac, fatal hemorrhage following regional anesthesia for operative dentistry in, 464
prolonged hemorrhage following extraction in, 720
Hemorrhage, fatal, following regional anesthesia for operative dentistry in hemophiliac, 464
prolonged, following extraction in hemophiliac, 720
Hemostatic, Terramycin starch sponge and starch powder, uses of, 1056
Hereditary intestinal polyposis with oral pigmentation (Jeghers' syndrome), 378
Herpes simplex following oral surgery, 1079
infections, studies of natural history of, 448 (Abst.)
zoster, 60
Histoplasmosis: clinical and pathologic study of 20 cases, 1139 (Abst.)
Hodgkins' "sarcoma" of cheek, 213
Hormones, adaptive, alarm reaction, general adaptation syndrome, and role of stress and, in dental medicine, 355
recent advances in endocrinology, 278
specific sex, parodontium of female under influence of, 340 (Abst.)
steroid, and periodontal diseases, 383
vitamins, and antibiotics, role of, in dental disturbances, 42
Human dental enamel, composition and structure of, 681 (Abst.)
teeth, actinomycetes and other pleomorphic organisms recovered from pigmented carious lesions of, 629
Hyaluronidase, production of beta-glucuronidase and, by Streptococcus mitis, 998
use of, in soft tissue injury and its influence on experimental bone repair, 1340 (Abst.)
in temporomandibular disturbances, 368
Hydrocortisone, role of, in control of apical periodontitis, 314
Hypercementosis, clinical significance of, 79
Hyperemic decalcification, 332
Hypermotility, effects of trauma and, on temporomandibular joint, 876
Hyperparathyroidism and osteitis fibrosa cystica generalisata, giant-cell tumor of mandible associated with, 534
recent advances in endocrinology, 273
Hypertrophied tissue, benign soft tissue tumors of oral cavity, 573
Hypertrophy, condylar, facial asymmetries due to, 449 (Abst.)
Hypoparathyroidism, study of dental anomalies in, 917 (Abst.)
Hypoxia; complications of general anesthesia in dentistry as related to respiratory system, 177

I

Idiopathic scleroderma of mouth, 913 (Abst.)
tooth resorption in association with metaplasia, 1298
Implants, acrylic, use of, in one stage reconstruction of mandible, 1140 (Abst.)
Incision and drainage in treatment of cellulitis arising from dental origin, 474
Incisors of Syrian hamster, effect of x-ray irradiation on, 1011
supernumerary maxillary, 901
Infection of bone secondary to treatment of fracture of mandible by means of skeletal fixation, 601
nutrition in oral surgery and its relationship to wound healing and, 797
of oral cavity, clinical investigation in use of erythromycin for, 858
treatment of sialolithiasis and source as focus of, 340 (Abst.)
Infections, herpes simplex, studies of natural history of, 448 (Abst.)
oral: evolution of their treatment, 1258
Terramycin in, 350
streptococcal, observations on comparative efficacy of erythromycin and penicillin in, 448 (Abst.)
Inflammation, solitary metastatic lesion to gingivae masquerading as, 403
Injection, mandibular; clinical roentgenological investigation, 105 (Abst.)
Injuries, faciomaxillary, early treatment of; discussion on management of injuries of nose and upper jaw, 569 (Abst.)
International Congress of Dental Science, twentieth anniversary of, 104
Intestinal polyposis, hereditary, with oral pigmentation (Jeghers' syndrome), 378
Intraductal papilloma of hard palate, 233
Intraoral cancer—general considerations, 446 (Abst.)

Intraosseous osteoma of mandible, case of, 471
Intubations; endotracheal anesthesia: technique and adjuncts, 1290
Irradiation, x-ray, effect of, on incisors of Syrian hamster, 1011
on oral tissues of Macacus rhesus monkey, 778

J

Jaw, lymphosarcomas of, 1250 (Abst.)
mechanism, 443 (B. rev.)
pseudo giant cell tumor (reparative granuloma) of, 113
right lower, condylectomy of comminuted condylar fracture and treatment of associated fracture of, on child 11 years of age, 460
upper, discussion on management of injuries of nose and: early treatment of faciomaxillary injuries, 569 (Abst.)
Jaws, benign central tumors of, of nonosteogenic and nonodontogenic types, 960
cartilage tumors of, 1320
tumors of, 681 (Absts.)
Jeghers' syndrome; hereditary intestinal polyposis with oral pigmentation, 378

K

Keratinization, physiology of, 1085
Kutapressin, influence of, on human bleeding and clotting times, 239
use of new vasoconstrictor in exodontia, 12

L

Laboratory tests in clinical oral pathology, indications for and value of, 1217
Laryngeal spasm; complications of general anesthesia in dentistry as related to respiratory system, 396
Lesion of minor salivary gland; intraductal papilloma of hard palate, 232
solitary metastatic, to gingivae masquerading as inflammation, 403
Lesions, carious-like, of enamel produced in artificial mouth, 427
dermatologic; dentist looks at field of dermatology, 162
periapical, value of roentgenographic film in diagnosis of, 979
pigmented carious, of human teeth, actinomycetes and other pleomorphic organisms recovered from, 629
soft tissue, of mouth, differential diagnosis of, with discussion of biopsy procedures, 507
Leukemia, myelogenous, and leukopenia, oral manifestations in case of, 616
Leukoplakia; malignant tumors of oral cavity, 1033
psoriasis of hard palate, 280
Lichen planus, 1276
Lipogranuloma, neurofibromatosis and, of mouth, 423
Lipoma; benign soft tissue tumors of oral cavity, 581
of oral cavity, 930
Lips, adaptation of, surgical dilatation of oral cleft and, 915 (Abst.)
Loyola University, School of Dentistry, 218, 911
Lupus erythematosus, chronic discoid, 111 (Abst.)
Lymphosarcomas of jaw, 1250 (Abst.)

M

Malignant bone tumors, practical considerations in management of, 680 (Abst.)
giant cell tumor of bone, 222 (Abst.)
melanomas of mouth, 1108
mixed tumor of palate—cylindroma, 705
oral tumors, 1250 (Absts.)
tumors of oral cavity, 1031
Malocclusion; periodontal disease—practical approach to its treatment and prevention, 1338 (Abst.)
Mandible, abnormal bony connections between skull and, 954
atypical multilocular follicular cyst of, 1
osteomyelitis of, 1160
benign and malignant tumors of, technique of immediate bone grafting in treatment of, and review of 17 consecutive cases, 1249 (Abst.)
bilateral resection of, 856
cavernous hemangioma occurring in body of, 1201
fibro-osteoma, containing dentine, of, 726
giant-cell tumor of, associated with hyperparathyroidism and osteitis fibrosa cystica generalisata, 534
hemangiomas of, 450 (Abst.)
immobilization of, report of ten years' experience in treatment of subluxation and luxation of temporomandibular joint by injection of sclerosing agent and, 732
intraoral open reduction of fracture of, 225
intraosseous osteoma of, case of, 471
localized swelling of, 38
metastatic adenocarcinoma of, from sigmoid colon, 772
carcinoma in, 587
monostotic fibrous dysplasia of, 1236

Mandible—Cont'd
neoplasms of, 124
right, dentigerous cyst of, involving three teeth, treated after enucleation with cancellous bone chip grafts inserted intraorally, 848
solitary (hemorrhagic) cyst of, 88
surgical correction of developmental deformities of, 916 (Abst.)
treatment of fracture of, by means of skeletal fixation, infection of bone secondary to, 601
tuberculous osteomyelitis of, 1188
use of acrylic implants in one stage reconstruction of, 1140 (Abst.)
Mandibles, fractured and resected, splinting of, 915 (Abst.)
Mandibular branch, marginal, of facial nerve, significance of, 1134 (Abst.)
condyles, agenesis of, 133
cuspid, unerupted, extraoral removal of, 1197
first molar, malformed impacted, treatment of, 21
injection; clinical roentgenological investigation, 105 (Abst.)
involvement in osteopathia hyperostotica sclerotisans multiplex infantilis (Engelmann's disease), 1306
joint, metastatic tumors involving; tumors of condyle and temporomandibular joint, 1102
prognathism, about surgical treatment of, 450 (Abst.)
protrusion in edentulous patients, 813
Marmoset, studies on dentition of, 671
Masseter muscle, erectile hemangioma of, 449 (Abst.)
Maxilla, changes in, caused by full prosthesis, 796 (Abst.)
chondrosarcoma of, 140
osteochondroma of; cartilage tumors of jaws, 1320
osteomyelitis of, in infants, 1249 (Abst.)
Maxillary alveolus, fracture of, 830
canine, impacted, preoperative roentgenographic localization of, 499
carcinoma, retained teeth and, 446 (Abst.)
incisors, supernumerary, 901
sinus, dentigerous cyst in wall of, 1210
sinusitis in infants, diagnosis of, 913 (Abst.)
tuberosity, case of ossifying fibroma of, associated with unerupted ectopic molar, 1204
Maxillo-facial surgery, grafts in, 450 (Abst.)
Mayo Clinical diet manual, 1131 (B. rev.)
Meatus obturator in cleft palate prosthesis, 852
Medical College of Virginia, School of Dentistry, 1336
progress, 1954, 1132 (B. rev.)
Medicine, dental, alarm reaction, general adaptation syndrome, and role of stress and of adaptive hormones in, 355
oral, 108, 221, 447, 913, 1138 (Absts.); 42, 149, 241, 355, 609, 741, 858, 972, 1079, 1217, 1276
Melanin spots of oral mucosa and skin associated with polyps, 972
Melanomas, malignant, of mouth, 1108
Melanotic epithelial tumor, 795 (Abst.)
Meleda's disease, palmo-plantar keratodermies, paradontosis in case of, 222 (Abst.)
Metabolism, intracellular; steroid hormones and periodontal diseases, 383
Metaplasia, idiopathic tooth resorption in association with, 1298
Metastatic adenocarcinoma of mandible from sigmoid colon, 772
carcinoma in mandible, 587
lesion, solitary, to gingivae masquerading as inflammation, 403
tumors involving mandibular joint; tumors of condyle and temporomandibular joint, 1102
of oral cavity, 1141
Mexican Society of Endodontia, 911
Microorganisms, yeastlike, isolated from root canals, 98
Microscopic diagnosis; study of new biopsy service, 297
studies of periodontium of primary dentition of monkeys; II. posterior teeth during mixed dentitional period, 322
Microscopy, electron, of carious enamel and dentine, 64
Mineralization, impaired dentin, of rachitic rats, experimental prevention of, 912 (Abst.)
Mixed salivary tumor, subtotal parotidectomy for, 222 (Abst.)
tumor, malignant, of palate—cylindroma, 705
benign; benign soft tissue tumors of oral cavity, 581
of tongue, treatment of, with radioactive chronic phosphate solution, 223 (Abst.)
Molar, malformed impacted mandibular first, treatment of, 21
sockets, impacted third, penicillin in, 1207
unerupted ectopic, case of ossifying fibroma of maxillary tuberosity associated with, 1204
Monkey, Macacus rhesus, effect of x-ray irradiation on oral tissues of, 778

Monkeys, microscopic studies of periodontium of primary dentition of; II. posterior teeth during mixed dentitional period, 322
Monostotic fibrous dysplasia of mandible, 1236
Mount Sinai Hospital, 1337
Mouth, artificial, carious-like lesions of enamel produced in, 427
differential diagnosis of soft tissue lesions of, with discussion of biopsy procedures, 507
flora, effect of throat disinfectants on, 112 (Abst.)
idiopathic scleroderma of, 913 (Abst.)
malignant melanomas of, 1108
neurofibromatosis and lipogranuloma of, 423
suspected renal cell carcinoma of, case of, 453
M.R.S. syndrome and granulomatous cheilitis, 913 (Abst.)
Mucosa, oral, and skin, melanin spots of, associated with polyps, 972
Mucous membrane, Boeck's sarcoid of, 1242
sarcoidosis involving, 567
Multilocular follicular cyst, atypical, of mandible, 1
Muscle, masseter, erectile hemangioma of, 449 (Abst.)
Myelogenous leukemia and leukopenia, oral manifestations in case of, 616
Myositis ossificans; abnormal bony connections between skull and mandible, 955
Myxedema, ectodermal atypical polydysplasia and, 221 (Abst.)
Myxofibroma; benign soft tissue tumors of oral cavity, 578
Myxoma of condyle; tumors of condyle and temporomandibular joint, 1098

N

Nasopalatine cyst, 1062
involving greater portion of palate, 1183
Neck, head and; anatomy for surgeons, 1130 (B. rev.)
Necrosis of nose and cheek secondary to treatment of trigeminal neuralgia, 569 (Abst.)
Needle, broken, in pterygomandibular region, removal of, 1193
Negative culture, probability of error of, with use of combinations of antibiotics in endodontic treatment, 1311
Neoplasia in odontogenic cysts, 1227
Neoplasms of mandible, 124
Nerve, facial, significance of marginal mandibular branch of, 1134 (Abst.)
Neuralgia, trigeminal, necrosis of nose and cheek secondary to treatment of, 569 (Abst.)
personal experiences with electrocoagulation of Gasserian ganglion in, 916 (Abst.)
Neurilemmoma; solitary neurofibroma of oral cavity, 1150
Neurofibroma, solitary (neurilemmoma, schwannoma) of oral cavity, 1150
Neurofibromatosis and lipogranuloma of mouth, 423
Neurological diseases of face, 916 (Absts.)
New York Institute of Clinical Oral Pathology, Inc., 678, 910, 911
University College of Dentistry, 565, 911
Nose and cheek, necrosis of, secondary to treatment of trigeminal neuralgia, 569 (Abst.)
and sinuses, cylindroma in, 106 (Abst.)
and upper jaw, discussion on management of injuries of: early treatment of faciomaxillary injuries, 569 (Abst.)
Nutrition in oral surgery and its relationship to wound healing and infection, 797
Nutritional management of rampant caries, practical, 865

O

Obturator, meatus, in cleft palate prosthesis, 852
Odontogenic cysts, neoplasia in, 1227
fibroma, 307
neoplasms of mandible, 129
tumors, benign, of oral cavity, 695
Odontology and stomatology, 441 (B. rev.)
Odontoma; benign odontogenic tumors of oral cavity, 695
Ohio State University, College of Dentistry, 103, 910
postgraduate courses, 1335
Open reduction, intraoral, of fracture of mandible, 225
-bite, anterior, surgical correction of, 341
Operative dentistry in hemophiliac, fatal hemorrhage following regional anesthesia for, 464
on handicapped patients, tricholoroethylene anesthesia for, 488
oral surgery, 1, 113, 225, 341, 453, 571, 683, 797, 919, 1031, 1141, 1258
Oral and facial deformity, 1132 (B. rev.)
carcinoma, Gelfoam sponge biopsy in diagnosis of, 417
cavity, benign odontogenic tumors of, 695
osteogenic tumors of, 822
soft tissue tumors of, 573

Oral—Cont'd
clinical investigation in use of erythromycin for infection of, 858
lipoma of, 930
malignant tumors of, 1031
metastatic tumors of, 1141
motile non-sporulating anaerobic rods of, 1247 (B. rev.)
solitary neurofibroma (neurilemmoma, schwannoma) of, 1150
cleft, surgical dilatation of, and adaptation of lips, 915 (Abst.)
complications of sprue, 55
infections: evolution of their treatment, 1258
Terramycin in, 350
manifestations in case of myelogenous leukemia and leukopenia, 616
medicine, 108, 221, 447, 913, 1138 (Absts.); 42, 149, 241, 355, 609, 741, 858, 972, 1079, 1217, 1276
mucosa and skin, melanin spots of, associated with polyps, 972
pathology, 106, 446, 567, 795, 1028, 1136 (Absts.); 64, 186, 297, 403, 507, 629, 763, 876, 984, 1085, 1227, 1298
clinical, indications for and value of laboratory tests in, 1217
studies in, 217, 332, 559, 787, 1021, 1320
pemphigus vulgaris, diagnosis of, 913 (Abst.)
pigmentation, hereditary intestinal polyposis with (Jeghers' syndrome), 378
procaine in control of pruritus, use of, 917 (Abst.)
roentgenology, 183, 499, 755, 979
surgery, 222, 339, 449, 568, 680, 914, 1139, 1249 (Absts.); 442 (B. rev.)
general anesthesia for, 620
herpes simplex following, 1079
nutrition in, and its relationship to wound healing and infection, 797
operative, 1, 113, 225, 341, 453, 571, 683, 797, 919, 1031, 1141, 1258
roentgenographic aid for, 755
use of parenteral Dramamine to control postoperative vomiting in office practice of, 294
tissues of Macacus rhesus monkey, effect of x-ray irradiation on, 778
tumors, malignant, 1250 (Abst.)
Orange juice ingestion, some observations on influence of, on teeth and supporting structures, 741
Orthodontic cement, effect of, on tooth enamel, 108 (Abst.)
theory and practice, 445 (B. notice)
treatment; treatment of malformed impacted first molar, 25
Orthodontics, clinical; lehrgang der gebissregelung, 442 (B. rev.)
Ossifying fibroma of maxillary tuberosity associated with unerupted ectopic molar, case of, 1204
Osteitis, acute hematogenous, in childhood, 452 (Abst.)
deformans; Paget's disease, 939
fibrosa cystica, localized; benign central tumors of jaws of nonosteogenic and nonodontogenic types, 962
hyperparathyroidism and, giant-cell tumor of mandible associated with, 534
localized swelling of mandible, 38
Osteochondroma; benign osteogenic tumors of oral cavity, 829
of maxilla; cartilage tumors of jaws, 1320
Osteofibromatosis, diffuse; symptom complex, 837
Osteogenesis, use of cortical bone to stimulate, 1273
Osteogenic sarcoma; neoplasms of mandible, 124
tumors, benign, of oral cavity, 822
Osteoma and hypertrophy of condyle; tumors of condyle and temporomandibular joint, 1094
benign osteogenic tumors of oral cavity, 826
endosteal, delay healing of lower right first molar extraction wound located within, 948
intraosseous, of mandible, case of, 471
Osteomyelitis of mandible, atypical, 1160
of maxilla in infants, 1249 (Abst.)
tuberculous, of mandible, 1188
Osteopathia hyperostotica sclerotisans multiplex infantilis (Engelmann's disease), mandibular involvement in, 1306
Osteoporosis; role of hormones, vitamins, and antibiotics in dental disturbances, 52

P

Paget's disease; clinical significance of hypercementosis, 81
osteitis deformans, 939
Pain in dentistry, problems of, 149
syndrome, abandoned; causalgia in dentistry, 594
Palate, hard, intraductal papilloma of, 232
psoriasis of, 280
malignant mixed tumor of—cylindroma, 705
nasopalatine cyst involving greater portion of, 1183
Papilloma; benign soft tissue tumors of oral cavity, 586
intraductal, of hard palate, 232
Paradontosis in cases of palmo-plantar keratodermies Meleda's disease, 222 (Abst.)

Parenteral Dramamine, use of, to control postoperative vomiting in office practice of oral surgery, 294
Parodontium of female under influence of specific sex hormones, 340 (Abst.)
Parotidectomy, subtotal, for mixed salivary tumor, 222 (Abst.)
Pathological conditions, beginning of, limits of normal and, in roentgen picture of skeleton, 220 (B. rev.)
Pathology, clinical oral, indications for and value of laboratory tests in, 1217
studies in, 217, 332, 559, 787, 1021, 1320
oral, 106, 446, 567, 795, 1028, 1136 (Absts.); 64, 186, 297, 403, 507, 629, 763, 876, 984, 1085, 1227, 1298
Pediatric preanesthetic preparation, 1136 (Abst.)
Pemphigus vulgaris, oral, diagnosis of, 913 (Abst.)
Penicillin, erythromycin and, observations on comparative efficacy of, in streptococcal infections, 448 (Abst.)
G, tablets, pure crystalline, in extraction wounds, use of, 145
in impacted third molar sockets, 1207
Periadenitis mucosa necrotica recurrens, 1339 (Abst.)
Periapical bone, hyperplasia of; clinical significance of hypercementosis, 85
lesions, value of roentgenographic film in differential diagnosis of, 979
Periodontal destruction; oral complications of sprue, 55
disease—practical approach to its treatment and prevention, 1250, 1338 (Abst.)
diseases, classification of, 477
steroid hormones and, 383
prognosis, tooth root length-volume relationships, aid to; I. anterior teeth, 735
Periodontia, 340, 1250, 1338 (Absts.); 383, 477, 607, 735, 1069
Periodontitis, 1252 (Abst.)
apical, role of hydrocortisone in control of, 314
Periodontium of primary dentition of monkeys, microscopic studies of; II. posterior teeth during mixed dentitional period, 322
Periodontology, clinical—dynamics and treatment, 444 (B. notice)
courses at Columbia University, 439
diagnosis and treatment, 443 (B. rev.)
Pharyngeal spasm; complications of general anesthesia in dentistry as related to respiratory system, 395
Physiology, anatomy and, 1134 (Absts.)
of keratinization, 1085
of pigmentation, 241
of teeth, 1340 (Abst.)
Pigmentation of lips and mouth; melanin spots of oral mucosa and skin associated with polyps, 972
oral (Jeghers' syndrome), hereditary intestinal polyposis with, 378
physiology of, 241
Pigmented carious lesions of human teeth, actinomycetes and other pleomorphic organisms recovered from, 629
Pigmenting agents; physiology of pigmentation, 251
Pituitary dwarfism; recent advances in endocrinology, 270
Polydysplasia, ectodermal atypical, and myxedema, 221 (Abst.)
Polyethylene implant; agenesis of mandibular condyle, 133
Polyostotic fibrous dysplasia, 524
Polyposis, hereditary intestinal, with oral pigmentation (Jeghers' syndrome), 378
Polyps, melanin spots of oral mucosa and skin associated with, 972
Pregnancy tumor, 714
tumors; benign soft tissue tumors of oral cavity, 576
gingival condition in pregnant women, 644
Probability of error of negative culture with use of combinations of antibiotics in endodontic treatment, 1311
Procaine, oral, use of, in control of pruritus, 917 (Abst.)
Professional news items, 103, 217, 338, 439, 565, 678, 792, 910, 1026, 1245, 1335
Prognathism, mandibular, about surgical treatment of, 450 (Abst.)
Prognosis, periodontal, tooth root length-volume relationships, aid to; I. anterior teeth, 735
Prosthesis, cleft palate, meatus obturator in, 852
full, changes in maxilla caused by, 796 (Abst.)
surgical, 919
Protrusion, mandibular, in edentulous patients, 813
Pruritus, use of oral procaine in control of, 917 (Abst.)
Pseudoneuroma, case report of, 796 (Abst.)
Psoriasis of hard palate, 280
Psychosomatic angioneurotic edema, case of, 172
dentistry, dynamics of, 1133 (B. rev.)
Pterygomandibular region, removal of broken needle in, 1193
Public Health Workshop, third, First District Dental Society, 1337

Pulmonary complications following anesthesia; complications of general anesthesia in dentistry as related to respiratory system, 180
Pulp exposures, treatment of, 194
of experimental animals, effect of systemic disturbances on, 550

R

Radioactive chromic phosphate solution, treatment of mixed tumor of tongue with, 223 (Abst.)
Radiography of zygomatic arches, 183
Removal, extraoral, of unerupted mandibular cuspid, 1197
of broken needle in pterygomandibular region, 1193
of facial defect by use of stent, 1212
Renal cell carcinoma, suspected, of mouth, case of, 453
Reparative granuloma; pseudo giant cell tumor of jaw, 113
Replantation of teeth in hamsters, 1116
tooth, 916 (Abst.)
Research, 681, 794, 912 (Absts.); 207, 322, 427, 550, 662, 778, 998, 1116
clinical and laboratory, 917, 1340 (Absts.)
Resection of mandible, bilateral, 856
Resorption, idiopathic tooth, in association with metaplasia, 1298
Respiratory system, complications of general anesthesia in dentistry as related to, 176, 287, 395
Review of literature, 105, 220, 339, 441, 567, 680, 794, 912, 1027, 1130, 1247, 1338
Reviews of new books, 220, 441, 1130, 1247
Roentgen picture of skeleton, limits of normal and beginning of pathological conditions in, 220 (B. rev.)
Roentgenographic aid for oral surgery, 755
changes, intraoral, in sickle-cell anemia, 787
film, value of, in differential diagnosis of periapical lesions, 979
localization, preoperative, of impacted maxillary canine, 499
Roentgenology, oral, 183, 499, 755, 979
Root canals, anatomy of, 1249 (Abst.)
yeastlike microorganisms isolated from, 98
Replantation of upper anterior teeth, clinical observations on, 27

S

St. Louis University, 1246, 1335
Salivary calculus preventive agent, clinical evaluation of, 607
gland tumors, 683
tumor, mixed, subtotal parotidectomy for, 222 (Abst.)
Sarcoid, Boeck's, of mucous membrane, 1242
Sarcoidosis involving mucous membranes, 567 (Abst.)
Sarcoma, Hodgkin's, of cheek, 213
osteogenic; neoplasms of mandible, 124
Schwannoma; neoplasms of mandible, 127
solitary neurofibroma of oral cavity, 1150
Scleroderma, idiopathic, of mouth, 913 (Abst.)
Sclerosing agent, injection of, and immobilization of mandible, report of ten years' experience in treatment of subluxation and luxation of temporomandibular joint by injection of, 732
Sex hormones; recent advances in endocrinology, 268
specific, parodontium of female under influence of, 340 (Abst.)
Shell teeth; new form of dentinal dysplasia, 543
Sialoadenitis and sialolithiasis, chronic, therapy in, 224 (Abst.)
Sialolithiasis and source as focus of infection, treatment of, 340 (Abst.)
chronic sialoadenitis and, therapy in, 224 (Abst.)
Sickle-cell anemia, intraoral roentgenographic changes in, 787
Sigmoid colon, metastatic adenocarcinoma of mandible from, 772
Sinus, maxillary, dentigerous cyst in wall of, 1210
Sinuses, cylindroma in nose and, 106 (Abst.)
Sinusitis, maxillary, diagnosis of, in infants, 913 (Abst.)
Skeletal fixation, infection of bone secondary to treatment of fracture of mandible by means of, 601
Skin, melanin spots of oral mucosa and, associated with polyps, 972
Skull and mandible, abnormal bony connections between, 954
cleaning with dermestid beetles, 96
Smallpox vaccine, failure of, in treatment of recurrent aphthous stomatitis, 110 (Abst.)
Sodium fluoride, method of controlling dental caries in rats by injections of, 1340 (Abst.)
Spasmophilia during dental operations, 914 (Abst.)
Speech impediment, tori mandibulari with, 1270
Sprue, oral complications of, 55
Squamous epithelioma, actinomycosis and, 1138 (Abst.)
Starch sponge and starch powder hemostatic, Terramycin, uses of, 1056
Stenson's duct, carcinoma of, 795 (Abst.)
Stent, removal of facial defect by use of, 1212

Sterilizing carious dentine, preliminary report of investigation to study effectiveness of certain drugs for, 647
Stevens-Johnson syndrome; erythema multiforme, 750
Stomatology, fourteenth French Congress of, 566
odontology and, 441 (B. rev.)
Streptococcal infections, observations on comparative efficacy of erythromycin and penicillin in, 448 (Abst.)
Streptococcus mitis, production of beta-glucuronidase and hyaluronidase by, 998
Stress, role of, and of adaptive hormones in dental medicine, alarm reaction, general adaptation syndrome and, 355
Submaxillary gland, displacement of, and its clinical importance, 447 (Abst.)
Succinylcholine; complications of general anesthesia in dentistry as related to respiratory system, 400
Supernumerary maxillary incisors, 901
Surgeons, anatomy for; Vol. I. head and neck, 1130 (B. rev.)
Surgery, dental, bacteriology for students of, 1131 (B. rev.)
maxillo-facial, grafts in, 450 (Abst.)
operative oral, 1, 113, 225, 341, 453, 571, 683, 797, 919, 1031, 1141, 1258
oral, 222, 339, 449, 568, 680, 914, 1139, 1249 (Absts.); 442 (B. rev.)
general anesthesia for, 620
herpes simplex following, 1079
nutrition in, and its relationship to wound healing and infection, 797
roentgenographic aid for, 755
Surgical correction of anterior open-bite, 341
of developmental deformities of mandible, 916 (Abst.)
dilatation of oral cleft and adaptation of lips, 915 (Abst.)
prosthesis, 919
treatment of cancer of tongue, 339 (Abst.)
of mandibular prognathism, about, 450 (Abst.)
Surital sodium; new intravenous anesthetic, 1223
Stomatitis, angular, treated with Silicote ointment, 111 (Abst.)
recurrent aphthous, failure of smallpox vaccine in treatment of, 110 (Abst.)
ulcerative, 109 (Abst.)
Swelling, localized, of mandible, 38
Syrian hamster, effect of x-ray irradiation on incisors of, 1011
hamsters, some observations on dental caries in, 207
Systemic disturbances, effect of, on pulp of experimental animals, 550

T

Teeth and supporting structures, some observations on influence of orange juice ingestion on, 741
human, actinomycetes and other pleomorphic organisms recovered from pigmented carious lesions of, 629
physiology of, 1340 (Abst.)
replantation of, in hamster, 1116
retained, and maxillary carcinoma, 446 (Abst.)
shell; new form of dentinal dysplasia, 543
upper anterior, clinical observations on replantation of, 27
Temple University School of Dentistry, 793
Temporomandibular disturbances, use of hyaluronidase in, 368
joint disorders, Columbia University offers course on, 1335
effects of trauma and hypermotility on, 876
report of ten years' experience in treatment of subluxation and luxation of, by injection of sclerosing agent and immobilization of mandible, 732
tumors of condyle and, 1091
Terramycin in oral infections, 350
starch sponge and starch powder hemostatic, uses of, 1056
Therapy in chronic sialoadenitis and sialolithiasis, 224 (Abst.)
of pigmentary disorders; physiology of pigmentation, 249
Throat disinfectants, effect of, on mouth flora, 112 (Abst.)
Thrombo-phlebitis, cranio-facial, 1139 (Abst.)
Thyroid; recent advances in endocrinology, 277
Toluidine blue in management of post-operative bleeding, 1066
Tongue, actinomycosis of, 1178
black hairy, 559
hairy, 109 (Abst.)
surgical treatment of cancer of, 339 (Abst.)
treatment of mixed tumor of, with radioactive chromic phosphate solution, 223 (Abst.)
unilateral hairy, 1140 (Abst.)
Tooth, chlorophyll stain penetration of, 312
development, adamantinoma in relation to, 1136 (Abst.)
enamel, effect of orthodontic cement on, 108 (Abst.)
movement, bone changes associated with; influence of menstrual cycle on rate of tooth movement, 1138 (Abst.)

Tooth—Cont'd
replantation, 916 (Abst.)
resorption, idiopathic, in association with metaplasia, 1298
root length-volume relationships, aid to periodontal prognosis; I. anterior teeth, 735
rotation center, determination of, 392
Tori mandibulari with speech impediment, 1270
Torus mandibularis; benign osteogenic tumors of oral cavity, 825
palatinus; benign osteogenic tumors of oral cavity, 824
Tracheotomy, emergency; fatal hemorrhage following regional anesthesia for operative dentistry in hemophiliac, 466
Trauma and hypermotility, effects of, on temporomandibular joint, 876
Treatment, diagnosis and, of hemophilia, 914 (Abst.)
endodontic, probability of error of negative culture with use of combinations of antibiotics in, 1311
importance of timing of, in cases of cleft palate, 1046
of malformed impacted mandibular first molar, 21
of mixed tumor of tongue with radioactive chromic phosphate solution, 223 (Abst.)
of pulp exposures, 194
Trichloroethylene analgesia, cardiac arrest occurring under, 1027 (Abst.)
anesthesia for operative dentistry on handicapped patients, 488
Trigeminal neuralgia, necrosis of nose and cheek secondary to treatment of, 569 (Abst.)
personal experiences with electrocoagulation of Gasserian ganglion in, 916 (Abst.)
Tuberculosis in wall of branchiogenic cyst, 107 (Abst.)
of alveolar gingiva, 894
Tuberculous osteomyelitis of mandible, 1188
Tufts College Dental School, 218, 679, 910, 1335
Division of Graduate and Postgraduate Studies, 103, 566
Tumor, benign giant-cell, of central type; benign central tumors of jaws of nonosteogenic and nonodontogenic types, 960
giant-cell, of mandible associated with hyperparathyroidism and osteitis fibrosa cystica generalisata, 534
malignant mixed, of palate—cylindroma, 705
melanotic, epithelial, 795 (Abst.)
mixed; benign soft tissue tumors of oral cavity, 581
Tumor—Cont'd
of tongue, treatment of, with radioactive chromic phosphate solution, 223 (Abst.)
salivary, subtotal parotidectomy for, 222 (Abst.)
peripheral giant-cell; benign soft tissue tumors of oral cavity, 576
pregnancy, 714
pseudo giant cell, (reparative granuloma) of jaw, 113
Tumors, benign and malignant, of mandible, technique of immediate bone grafting in, and review of 17 consecutive cases, 1249 (Abst.)
central, of jaws of nonosteogenic and nonodontogenic types, 960
odontogenic, of oral cavity, 695
osteogenic, of oral cavity, 822
soft tissue, of oral cavity, 573
cartilage, of jaws, 1320
malignant bone, practical considerations in management of, 680 (Abst.)
of oral cavity, 1031
oral, 1250 (Absts.)
metastatic, of oral cavity, 1141
of condyle and temporomandibular joint, 1091
of jaws, 681 (Absts.)
pregnancy; benign soft tissue tumors of oral cavity, 576
gingival condition in pregnant women, 644
salivary gland, 683

U

Ulcerative stomatitis, 109 (Abst.)
Unacaine allergy, 1082
United States ARPA, establishment of, 792
University of California, 338
of Louisville School of Dentistry, 104
of Minnesota, 792
of Pennsylvania, 338, 1026
Postgraduate courses, 1245

V

Varidase in endodontics, clinical appraisal of, 658
Vasoconstrictor (Kutapressin), use of new, in exodontia, 12
Vestibule depth, frenum position and, in relation to gingival health, 1069
Viral concept of cancer, 255
Vitamins, role of hormones, and antibiotics in dental disturbances, 42
